

## **REMARKS**

This Amendment under 37 CFR § 1.312 is responsive to the Notice of Allowance mailed on September 12, 2008. In reviewing this application after receipt of the Notice of Allowance, Applicants noted a small number of formal errors that Applicants wish to correct.

The Drawings are amended in order to avoid having two different elements with the same reference numeral ("32") and to correct mistakes (cartridge reference numeral 40 and separation wall reference numeral 41; extraneous reference numeral "64"). Corresponding amendments are made in the Specification. Applicants have additionally amended the Specification to correct an error in the description of FIG 5.

Applicants have amended the language of dependent claim 3 to properly refer to the base plate as introduced in claim 2.

These amendments are believed to require no further search or examination by the Examiner. Applicants would therefore appreciate early notice of the entry of this Amendment under 37 CFR § 1.312.
